

## Press release

### Construction Simulator 3

## Road construction with the latest machines of the popular European brands WIRTGEN, VÖGELE and HAMM

**Moenchengladbach/Germany, January 9, 2019** – Publisher astragon Entertainment and weltenbauer. SE are happy to present the first set of road construction machines of the upcoming **Construction Simulator® 3** for iPhone® and iPad® as well as smartphones and tablets using the Android™ operating system. Thanks to a new partnership with the German WIRTGEN GROUP, mobile gamers will gain access to officially licensed vehicles by the WIRTGEN, VÖGELE and HAMM brands for the first time in the history of the popular game series.

The trailer presenting the new **Construction Simulator® 3** WIRTGEN GROUP vehicles is now available on YouTube: [https://youtu.be/C8MeViws\\_W4](https://youtu.be/C8MeViws_W4)

In **Construction Simulator® 3**, players can look forward to a wide range of exciting construction jobs and machines. Just like in the previous parts of the popular game series, the construction of houses and other structures as well as road construction will once again play a major role in the virtual builders' careers. The team of weltenbauer. is therefore very happy to announce their new range of officially licensed machines in more detail today:

While simulation fans will be able to use the powerful WIRTGEN W 210i large milling machine to remove old road pavements, the VÖGELE SUPER 2000-3i tracked paver can be utilized to apply new asphalt on the previously prepared road. When it comes to compressing the ground and level the asphalt, the HAMM H 11i compactor with vibratory smooth roller drum and the HAMM HD+ 90i VO articulated tandem roller are the perfect machines for the job.

In addition to the vehicles of the WIRTGEN GROUP, **Construction Simulator® 3** will of course also include machines by the famous makers Caterpillar, Liebherr, MAN, Palfinger, Bell, STILL, ATLAS and MEILLER Kipper, which have already made an appearance in the previous games of the series, as well as even more newly added brands such as CASE, BOMAG, and Bobcat.

The release of **Construction Simulator® 3** for iPhone® and iPad® as well as smartphones and tablets using the Android™ operating system is planned for the first half of 2019.
